

Inntopia Commerce

Sell everything your guests need in a single booking path.

Sell real-time inventory from your PMS, POS, tee-sheet, and spa in one booking engine. The result? Driving larger cart size, increased revenue, and happier guests.

Everything in One Place

Rooms, activities, spa, tee-times, lift tickets, transportation, and more in one cart both online and in your call center.

Sell Third-Party Inventory

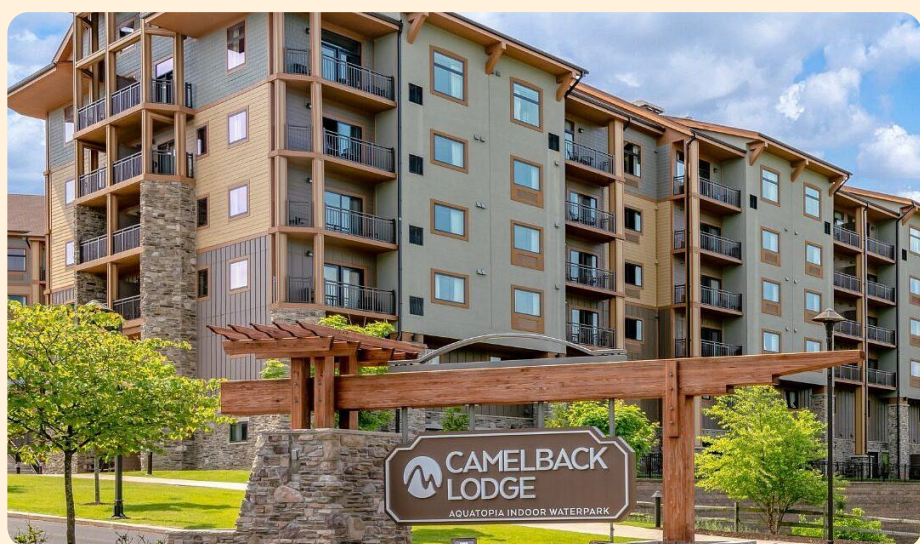

Seamlessly sell third-party inventory from area lodging, transportation, or activity providers for an enhanced guest experience and additional revenue.

Two-Way Integrations

Inventory flows seamlessly between your PMS, POS, and tee sheet allowing for streamlined sales and business-as-usual at the resort.

Web, Mobile, App, Call Center

An interface for every way – and place – your guests want to book their vacation. Guests can even start online and finish over the phone (or vice versa).

"I love that everything is in one booking engine instead of multiple booking engines. The ease of being able to put multiple adventures into your cart means guests can essentially create their own custom vacation."

Camelback Resort

Tannersville, Pennsylvania

“We’ve increased online bookings 2.5x with Inntopia Commerce. Before, just 22-23% of bookings were online. Now it’s 52% in winter and 63% in summer.”

Stein Collection

Park City, Utah

“Our focus is on the guest and having one system to bundle and cross sell everything in one transaction was critical.”

Mt Buller

Victoria, Australia
